## BID REQUEST

The Monarch Fire Protection District is requesting licensed, bonded and insured electricians to bid on a job of replacing 120V hard wired smoke alarms in residential homes. The smoke alarms are provided to the resident at a reduced cost through a program administered by The Monarch Fire Protection District. This is a replacement of existing smoke alarms.

Through this program Fighter/Paramedics are installing smoke alarms in resident's homes. The alarms that are being replaced must have a plug style adapter for the Firefighter/Paramedics to replace the smoke alarms. However, some older homes do not have the adapter they are hard wired using a wire nut connection. Firefighters are not allowed, through policy, to make this connection. The Monarch Fire Protection District is looking for an Electrician or Electrical Contractor that we can recommend and be able to tell the resident the cost per smoke alarm to be replaced.

Monarch Fire Protection District will use this bid process to choose an electrician who we will recommend to the residents. Monarch Fire Protection District will not be responsible for billing or for any dispute the electrician has with the home owner.

Request:

1. Electricians shall be licensed in the state of Missouri.
2. Electricians shall be bonded and insured
3. Electricians shall bid on the job on a per alarm basis
4. Electricians will be responsible for scheduling with the home owner
5. When Firefighter/Paramedics from the Monarch Fire Protection District identify a home owner who needs the services of the electrician, the home owner will be told the cost per alarm and will be given the electrician's contact information. The electrician will bill the home owner.

Send Bids by July 1, 2013 to:

Monarch Fire Protection District  
13725 Olive Blvd.  
Chesterfield, MO 63385  
Attn: Smoke Alarm Bid Process
